## Experience Elegance the Vitrea Way

Vitrea's VTouch KNX keypads bring elegance and style to any home or office space. These beautifully designed, customizable glass touch keypads easily replace basic, plastic counterparts and integrate seamlessly with leading KNX systems including Siemens, ABB, Schneider and more. Creating the luxurious, high tech lifestyle you've always imagined has never been simpler.

### VTouch KNX keypads offers elegant and unique design with many options including:

- A variety of standard glass colors plus the option for custom colors to match your interiors
- Panels are customized with words or icons to represent each option's function
- Keypads have adjustable, backlit blue LED lights for easy location in the dark
- Keypads can be standard or flush mounted in either a horizontal or vertical position
- Compatible with any KNX system
- Keypads support 1, 2, 3, 4, 6 or 8 buttons
- Easily connect the VTouch KNX keypads via 2 wires for data and 24V
- Simple installation and easy configuration offers a variety of possibilities
- Matching glass-made socket frames for a unified design of the interior space

Vitrea reserves the right to make changes to its products without prior notice.

Integration of VTouch KNX Keypads with KNX Smart Home Systems
